CLP Highlights of the Season

We want to take this opportunity to share with all of you some of CLP's highlights from this summer and the start of the fall trimester.

Clinic in collaboration with Goodwill at their San Ysidro site.

Closer Look: Summer Pop-Up Clinics

Throughout the past two years CLP has partnered with organizations across San Diego County to bring our services to them in the form of a one time clinic. This summer we collaborated with SAY San Diego, Goodwill and Serving Seniors, among others, to bring our services to community members that might be unaware of them or cannot easily access our traditional clinics. Our students traveled to San Ysidro, Mission Valley and Ocean Beach, to name a few locations, to “meet people where they are” and provide much needed assistance. We are thrilled to continue to live up to our motto and that our students are so enthusiastic about serving their community.

Welcome New Students!

It is that time of the year where CLP welcomes a new group of students to our program! Before the official start of the fall trimester, our students spent the day learning about our clinics and the vulnerable populations they would be serving during their clinical experience. The day was packed with information and simulations, but it was also an opportunity for the students to get to know our CLP staff and each other. This trimester, we are fortunate enough to have several students who speak a second language. This will certainly help our clinic better serve the San Diego community!
